EXPLANATORY PREFACE.

This volume contains all the data now at the City Library concerning the Special Commissioners, who were authorized, by an Act of Assembly, 1782, to designate streets to be paved, pass regulations, etc. These Special Commissioners, however, should not be confused with (temporary) special commissions which laid out certain streets during the same period. Legislative Acts show that sundry commissioners of this latter character were authorized, but their records are very meager.

Neither had the Special Commissioners anything in common with the Town or City Commissioners of that time, whose records have been published heretofore. Where the powers of the Town or City Commissioners ended and those of the Special Commissioners began is not clear, but they appear seldom to have interfered. This printed copy has been made to conform to the original in every possible detail.

From the original record book the first page is missing; hence this printed copy is incomplete to that extent.

ACT OF ASSEMBLY RELATING TO SPECIAL COMMISSIONERS.

An Act for the speedy application of monies appropriated for repairing the streets in Baltimore Town, in Baltimore county and for other purposes.—April, 1782—c. 39.

[By this act certain persons were appointed special commissioners, with full power to direct and superintend the leveling, pitching, paving and repairing the streets, and the building and repairing the bridges within the said town, and to devise and do all and everything necessary to promote this end, which they may judge for the benefit or advantage of the said town and its inhabitants. The Commissioners of Baltimore Town were also directed by this act to pay over to the special commissioners all monies paid to them or in their hands, by virtue of their powers for repairing the streets of said town; and also, that all and every fine and forfeiture heretofore appropriated for the repair of said streets, or for the use and benefit of said town, be collected by or paid to the special commissioners, or to their treasurer, to be applied according to the intention of this act; and in case the appropriations aforesaid should prove inadequate, the special commissioners were empowered to borrow to the amount of five thousand pounds from the inhabitants of said town, pledging for the discharge thereof the whole or any part of the above appropriations, the money so borrowed to be applied as aforesaid; also, by the said act it was provided that Baltimore street be first paved, and that those streets which are most essential to the welfare and trade of the town

ACT OF ASSEMBLY.

be paved in succession, till the whole be completed, or such parts of them as appear necessary to be paved by the said special commissioners. And that the special commissioners render annually an account of the receipts and expenditures of all monies to the Commissioners of Baltimore Town, and publish in the Baltimore newspapers, in the first month of every year, a copy of the said account; and the said special commissioners, or any four or more of them, were authorized to execute the trust and duties reposed in them by this act; and in case of the death, resignation or removal from the said town by either of them, the residue or a majority of them might fill up the vacancy.]

[NOTE.—This act was to continue for five years; it was continued, revived and continued by several acts to the year 1799—expired.]

The first page is missing from original book, hence item 8 is the initial transaction recorded below.

The marginal numerals following will assist in tracing a given transaction through the records, they being utilized as a cross reference.—Editor.

135 In Consequence of Notice given in the Public Papers, that a Petition would be Presented to the General Assembly by the Special Commissioners and Other Inhabitants of this Town, for a Law to empower the said Commissioners to regulate the Water Courses and high ways in the Precincts; and to levy the same tax on Horses and Carriages in the Precincts as is levied on them in Town—The following Petition was agreed to and Signed Viz.:

To the Honble. The General Assembly of Maryland:

The Petition of the Special Commissioners, and other Inhabitants of Baltimore Town—Humbly Showeth, That in the Precincts of said Town there are in many Places very high Grounds which in wet weather Often Occasion the Water to run in such directions as to create loss and damage to many of the Inhabitants; and in Other Places there are Considerable low Grounds that Contain Stagnated Water, very Prejudicial to the Health of said Town and Precincts thereof—that a great Number of the Inhabitants of the said Precincts have Horses and Carriages that are continually employed in said Town, and receive considerable support and benefit from the same, and are not burthened with any Tax for the Streets—That the funds raised by the said Street Taxes are inadequate to repair the same and Build Bridges in said Town.

They therefore, pray your Honors to take the Case into Consideration, and enlarge the Powers of said Special Commissioners to extend over the Precincts of said Town; and that a Tax may be imposed in the said Precincts on Horses and Carriages Similar to that in Town; and the money to be applied to making and repairing the Streets and Sewers &c—in said Precincts and Town.

355 Whereas the Worshipfull the Levy Court for Baltimore County, taking into Consideration the Great necessity for having a new Bridge erected at the lower end of Jones's Falls in this Town at Water Street, and considering that this board, in consequence of the great difficulty of collecting the Taxes and the great expenses to be paid for erecting other Bridges, did on the 21st. of September last, Grant the Sum of Two hundred Pounds, to be paid into the hands of Messrs. William Spear and Cumberland Dugan, to be appropriated for the building a Bridge at that place. And whereas it appears to this board by an estimate presented by the said Messrs. Spear & Dugan, that a further Sum of One hundred and Seventy five Pounds will be necessary for the compleating the said bridge agreeable to the plan,

and as Messrs. Spear & Dugan propose advancing the said Sum of One hundred and Seventy five Pounds in order that the said Bridge should be finished and compleated without delay, provided this board will engage that they shall be repaid. Resolved therefore,

That should the Bridge to be built under the direction of Messrs. William Spear and Cumberland Dugan, over the Falls at Water Street, cost One hundred and Seventy five Pounds more than the said Two hundred Pounds—granted by the Levy Court, this board will pay the same, or such less Sum, if the expense should be less, when the debts already contracted are paid (*see* 672).

- 457 The Bridges heretofore built of wood at the Causeway leading to Fells Point being frequently carried away by the Freshets occasioned by heavy rains, and there being at

present no Bridge at that place, which is a great inconvenience to the public. Resolved, therefore, that it is the Opinion of this Board that having a stone Bridge built at the Causeway in the Centre of Harford Street where it crosses Wilks Street will be usefull and finally will be cheaper than the Continuance of Wooden Bridges, and that Robert Walsh and David Stodder, be appointed a Committee immediately to Contract for and Superintend the building and compleating a Stone Bridge at the said place, of the following dimensions, Viz.: twenty five feet long, running North and South, and twelve across East and West, and that a part of the money arising from the Vendue Office and now due be applied for that purpose.

1031 A Memorial and representation having been presented from a Majority of those persons holding property on that part of Pratt Street between Hanover Street and the West side of Sharp Street, showing that the said Inhabitants labour under the greatest inconvenience from the badness of the said Street; that it has become impossible to pass and repass with Carts and Waggon, and great difficulty even with a single Horse; and that, that part of the said Street must be deserted by the Inhabitants, tho. thick settled, unless the same is paved. And Whereas a Law has passed at the last Session of the General Assembly of this State, directing that no more than the Sum of Six Shillings and three pence per foot shall be collected for the paving any Street within this Town; and this board being of Opinion that the paving in that place cannot be done for that Sum per foot, and as there is no money in the hands of the Treasurer for the use of the Streets. Resolved therefore, that the said part of Pratt Street lying between Hanover Street and the West side of Sharp Street may be paved at the expense of these persons holding property on the same and that this board will give orders for Pitching and Leveling it (1001).

Allowance for Assessing in 1791, 7..10..0.

- 1221 A Memorial and representation having been presented by a Majority of those persons holding property on that part

of Charles Street between Chatham & Pratt Streets, shewing that the said Street is very much Cutt by heavy rains, and requesting that, that part of Charles Street between the said Chatham & Pratt Streets may be paved.

And Whereas a Law passed in the General Assembly of this State at November Session 1789, directing that no more than the Sum of Six Shillings and three pence per foot shall be Collected for paving any Street within this Town, and this board being of opinion that the paving in said Charles Street cannot be done for that Sum per foot and that there is no money in the Hands of the Treasurer to make up Said deficiency, which the said Street would require more than what the Law in the Said November Session 1789 has provided. Resolved therefore, that the Said part of Charles Street, between Pratt and Chatham Streets, may be paved at the Expence of those persons holding property on the Same, and that this Board will give orders for Levelling and ascertaining the descent of said Charles Street.

JOHN HILLEN.

JOHN BROWN.

JOSEPH TOWNSEND.

Whereupon Resolved that in Consequence of said Application—We the Subscribers Special Commissioners of the Town aforesaid having taken the subject into Consideration and having at divers times viewed the said Addition. Do find that there is and has been for a Number of Years past a Stream of Water running thro' the said Addition which empties into the same out of Howard Street & crosses Timber Neck Lane near Paca Street, which Circumstance the present Proprietors purchased under & we consider that if the said Communication of Water Should by any means be obstructed by the Proprietors it would have a tendency greatly to injure a considerable number of the Inhabitants who reside in the West end of said Town as also the Navigable part of the Bason.

Therefore Be it remembered that on the Eleventh day of June Seventeen Hundred & Ninety three, the Special Commissioners of the Town aforesaid, Do Give and Grant full Power & authority to the Proprietors of the said Addition to enclose the same except the following Streets, Viz.: John Street, Charles Street & twenty feet of Hague Street as far to the Eastward as Paca Street and Paca Street, which last mentioned Street is reserved by the Special Commissioners & their successors for Ever for the express purpose of Conveying the aforesaid Stream of Water: Provided it should ever hereafter meet with any Obstruction by the Proprietors of those Lots or Parcels of Land through which it now passes.

In Witness whereof We have hereunto set our Hands and affixed our Seal of Office.
